ABOUT ASK PACKAGING LTD

Britains Sustainability

Welcome to ASK Packaging Ltd, your trusted partner in sustainable living. Based in Northamptonshire the heart of the United Kingdom, we are proud manufacturers of eco-friendly birchwood wooden cutlery and a diverse range of environmentally conscious products.

Promoting the spirit of "Made in Great Britain" goes hand in hand with Britain's sustainability efforts. By manufacturing locally, we reduce our carbon footprint by minimising transportation emissions and supporting sustainable practices. Additionally, local production fosters a sense of accountability and transparency, as we can closely monitor and regulate our processes to ensure they align with environmental standards. Moreover, investing in British-made products strengthens our local economy, creating jobs and supporting communities. As we champion the "Made in Great Britain" ethos, we are not only celebrating our heritage and craftsmanship but also contributing to a more sustainable future for generations to come.

Eco-Friendly Excellence

At ASK Packaging Ltd, excellence is not just a goal; it's our foundation. Our birchwood wooden cutlery and eco-friendly products exemplify the highest standards of quality, craftsmanship, and sustainability. We believe that you deserve products that perform flawlessly while honouring our planet.

The Green Serve Difference

Eco-Pioneers: As eco-pioneers, we lead the way in sustainable manufacturing practices. Our products are designed with the environment in mind, ensuring they are not only biodegradable but also compostable

Customised Solutions

Whether you need eco-friendly cutlery for your restaurant, eco-packaging for your brand, or eco-friendly products for personal use, we offer customisation options tailored to your unique needs.

Our Sustainable Promise

At ASK Packaging Ltd, sustainability isn't a buzzword; it's a way of life. We continuously innovate and optimise our processes to minimise waste and reduce environmental impact. When you choose our products, you join us on a journey to make our planet a greener, cleaner place for generations to come.

Embrace Sustainability, Embrace Green Serve

We invite you to explore our extensive range of eco-friendly products and be a part of the sustainability revolution. By choosing ASK Packaging Ltd, you make a conscious choice for a brighter, cleaner, and more sustainable future.

Thank you for choosing us to be your eco-friendly partner. Together, we can create a more sustainable, eco-conscious and a healthier planet.

Anish Khinda
Managing Director

STAR PRODUCTS

Wooden Fork - 160mm

FSC Birchwood forks, the perfect eco-friendly solution for your dining needs! Crafted with sustainability in mind, these forks are designed to degrade naturally without causing harm to the environment, ensuring guilt-free disposal after use. Our Birchwood forks boast sturdy and durable teeth, providing you with a reliable dining experience without the worry of breakage.

Wooden Spoon - 160mm

FSC Birchwood wooden spoons, the perfect eco-friendly alternative for your kitchen or event needs! Crafted from sustainable Birchwood, these spoons offer a natural and environmentally conscious option for stirring, mixing, and serving. Each spoon is carefully crafted for durability, ensuring reliable performance for all your culinary endeavours.

Wooden Knife - 165mm

Introducing our FSC Birchwood wooden knives, the eco-friendly solution for all your cutting and spreading needs! Crafted from sustainable Birchwood, these knives offer a natural and environmentally conscious alternative to traditional plastic utensils.

Wooden Coffee Stirrer

The coffee stirrer is made of high quality wood. Biodegradable strong and reliable. Discard after use. It has no adverse effect on the surrounding environment. A variety of sizes to choose from.
